

FLUOR HANFORD
P.O. BOX 1000, MSIN H7-02
RICHLAND, WA 99352-1000

Fluor Hanford (FH) is the Project Hanford Management Contractor for the Department of Energy at the Hanford Site. FH has responsibility for Waste Management, the Fast Flux Test Facility (FFTF), Nuclear Chemical Processing, Spent Nuclear Fuel, Training, Analytical, Nuclear Material Stabilization and the Site Support Services. The support services include patrol, fire, transportation, maintenance and utilities.

Prospective contractors are invited to contact the Supplier Advocacy Office or the acquisition points of contact below to arrange appointments. Correspondence must include the provided Mailstops. **IT IS PREFERRED THAT AN APPOINTMENT BE MADE PRIOR TO SEEING CONTRACT SPECIALISTS.** All phones are in Area Code 509. The Fluor Hanford Contracting Department was restructured to better support its customers, reduce operating costs, improve efficiencies, increase organizational flexibility, provide greater staff development opportunities and facilitate supply-chain process improvement initiatives.

The restructuring involved all FH contracting and acquisition personnel. It resulted in organizing around four groups to meet the goals mentioned above as well as specific objectives:

- Consolidating like activities to streamline the placement process
- Creating consistency in dealing with customers and contractors
- Providing acquisition strategic planning resources to customers
- Developing more in-depth commodity/service knowledge
- Allowing for the ability to provide “back-up” staff to support customers during peak periods and staff absences.

The four groups are:

- **Prime Contract Management** – This group focuses on administration of the prime contract with the DOE Richland Operations Office.
- **Contract Support** – This group focuses on developing and providing timely acquisition processes and tools in support of FH supply-chain activities, providing acquisition reports and data for internal and external customers, administering the FH Small Business Programs, providing company-wide supply-

chain training and conducting specialized cost/price analyses. This group serves as the primary focal point for all acquisition-related issues with DOE-RL.

- **Materials Purchasing** – This group is responsible for executing and administering all FH acquisitions of materials and design/build components.
- **Project Subcontracting** – This group is responsible for executing all FH acquisitions and providing the associated administration of services.

The following are the points of contact for each of the acquisition organizations now under Fluor Hanford:

PROJECT SUBCONTRACTING (SNE, PFP, Functional)

Acquisition Point of Contact: John M. Robinson, Mgr., 376-8701, R3-13

Whitworth, Dale, 376-3842
Gustafson, Judy, 376-9130
Dana, George, 372-2150
Boothe, Stacy, 376-4464
McComb, Jeannine, 376-5637
Jacobsen, Ginny, 376-7955
Stecker, Steve, 373-7715

Sudikatus, Wendy, 376-2485
Fetterly, Windy, 376-1861
Kelly-Girvin, Nancy, 372-3355
Vance, Darla, 376-5215
Phillips, John, 376-8435
Hunter, Lori, 376-6986

PROJECT SUBCONTRACTING (RC, FFTF, HSO, WMP)

Acquisition Point of Contact: Tony Gasperino, Mgr., 376-6791, L0-32

Burch, Tracey A., 376-3466
Broady, Art, 376-1378
Eichten, Ken, 376-3503
Kitchen, Bob, 372-0493
Bates, Karen, 376-7390
Campisi, Frank, 372-0564

Bogart, Louise, 376-5191
Estes, Mike, 376-9491
Upchurch, Bob, 376-2456
Suter, Daniel, 376-8663
Garrard, Melissa, 376-4871
Kohlhas, Rebecca, 376-8084

MATERIALS PURCHASING

Acquisition Point of Contact: Dana Worthington, Mgr., 376-98311

Emery, Casey, 376-9921
Hanson, Theresa, 373-2098
Palfrey, Marge, 372-0470
Snow, Gary, 376-2957

Garcia, Karin, 376-3497
Magnaghi, Rita, 376-0323
Merriman, Sami, 373-2248
Hayner, Larry, 373-7931

SAFEGUARDS AND SECURITY

Protection Technology Hanford (PTH) is a direct subcontractor to FH. Since March 1, 1999, PTH has been responsible for management, operation and integration of all safeguards and security services of the Hanford Site, except Pacific Northwest National Laboratory. These services include function design, testing and upgrade of safeguards and security systems. The services also include material control and accountability, physical security, personnel security, technical security, information security (classified and unclassified), vulnerability assessment and the Hanford Patrol.

Technical Point of Contact:

Acquisition Point of Contact: Tony Gasperino, 376-6791, H7-10
